

## HEALTH DEPARTMENT

The 17th December, 1981

No. 28/142/81 511B I.—The Governor of Haryana is pleased to accord sanction as under :—

- (1) To the creation of the post of Director of Health Services (Hospitals) in the scale of pay of Rs 2500—12502—2750 plus N.P.A. subject to a ceiling of Rs 3,000 in addition to the existing post of Director, Health Services.
- (2) To the abolition of existing post of Additional Director, Health Services.
- (3) The nomination of the new post would be Director of Health Services (Hospitals) or DHS (H) for brief.
- (4) The present post of Director of Health Services is hereby redesignated as Director of Health Services (General) or DHS (G) for brief.
- (5) The Director Health Services (Hospitals) shall, for the time being, lookafter the work as indicated in annexure 'A'. The remaining work of the Health Department including the establishment work of HCMS I and II cadres, Dental Surgeons and ministerial staff of the Health Directorate will continue with the Director Health Services (General).
- (6) Although the two Directors, would be functioning for administrative convenience, this will not affect the seniority of the incumbents (viz Dr S. K. Sharma would remain senior to Dr. Ghanshyam Sharma in HCMS-I cadre). Further all matters requiring co-ordination of work, would still be continued to be done by the senior Director.
- (7) The Chief Medical Officers would work under the administrative control of the Director Health Services (viz the senior amongst the two Directors). The Medical Superintendents of the District level/100 bedded or bigger hospitals would work under the direct administrative control of the Director, Health Services (Hospitals). The Annual Confidential Reports of all the class I and class II Medical Officers would be recorded by the respective Director under whom those doctors would be working at the particular time.
- (8) There need not be any shifting of accommodation or rooms in the existing buildings by officers or branches in the Health Directorate. Only the redistribution of branches between the two Directors, on the basis of their respective assignments would serve the purpose.
- (9) In the event of long absence of one Director (on account of tour or leave etc.) the other Director would attend to the emergent work of his colleague also.
- (10) In view of integrated nature of total health care and overlapping of its social, preventive and curative aspects, distinct demarcation of geographical-institutional areas of work of the two Directors is not practicable and both the Directors could supplement each other in ensuring optimum utilisation of resources for meeting the desired health objectives. To give an example, it would be desirable for the Director of Health Services (General) to visit any big hospital to check that all the components of health and family welfare, health education, immunisation etc., (besides curative service) are being delivered to the people satisfactorily. Similarly Director Health Services (Hospitals) could also visit any institution in the state for ensuring satisfactory position of equipment and medico legal work etc.
- (11) Government will be competent to make changes in the proposed distribution of work according to the administrative requirements from time to time.
- (12) The expenditure involved in regard to the creation of the post of Director Health Services (H) Haryana will be met from the head of account "280—Medical—A—Allopathy-A (I) Direction and Administration-A(I) (a)-Headquarters staff-(Non Plan)."

This issues with the concurrence of Finance Department conveyed.—vide their U.O. No. 8/47-1FDII-81, dated 26th October, 1981.

G. V. GUPTA, Commn. and Secy.

## ANNEXURE—A

Director of Health Services (Hospitals)

1. To supervise functioning of all the district level and other big hospitals, having 100 or more beds, in the State.

2. To supervise functioning of all the Jail and Police Hospitals.
3. To ensure proper functioning of medical components of ESI Scheme- Effective supervision of all ESI dispensaries hospitals in the State.
4. To develop specialist services and establish specialised clinics (with sophisticated tools) in the hospitals as referred to in para (1) above.
